## FILMING TIPS AND TRICKS

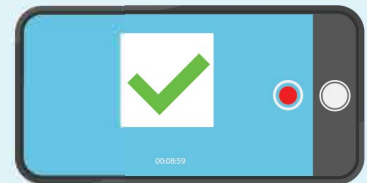

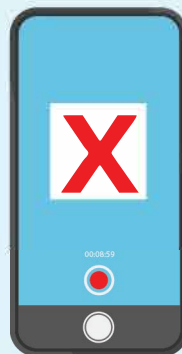

**1** Try to hold the phone as steady as possible or use a tripod. You can also set your phone on a surface against something. Get creative!

**2** Film in well-lit locations and make sure your face has plenty of light on it. Avoid bright backgrounds.

**3** Find a quiet place to film if possible. Avoid spaces that have an echo. Don't be too far away from your phone to ensure good audio quality.

**4** Record content with your phone horizontally to ensure we can utilize the footage on many platforms.

**5** Review your footage to ensure it looks and sounds good. Upload your video to your Facebook or Instagram and **tag your church**. We are so excited how God is going to use all of our stories to reach our area. If you have any questions, feel free to email us at \_\_\_\_\_.
